THE NECK CHECKER

CHECKS THE SEAL OF THE SAX NECK TENON TO AVOID LEAKS & IDENTIFIES
THE SMALLEST OF CRACKS

BASED ON A TOOL ORIGINALLY MADE BY WORLD-RENOWNED EUROPEAN
MANUFACTURER BENEDIKT EPELSHEIM

June 11, 2019 - Wilmington, North Carolina - FOR IMMEDIATE RELEASE - [MusicMedic.com](https://www.musicmedic.com), your online resource for Woodwinds repair tools and supplies is proud to offer **The Neck Checker**. The Neck Checker is designed to check the seal of a saxophone neck tenon. Its slick design and easy operation seal the neck from the rest of the instrument below the tenon and receiver. This allows one to check for leaks in the Tenon. It can be used with a suction test or attach the MusicMedic Leak Tester to find leaks at the tenon, solder joints, or even the smallest crack in tubing. Available in Alto and Tenor models.

Available to order now. Neck-Checker Alto MSRP: \$46.00 Neck-Checker Tenor MSRP: \$50.00

Anyone interested in dealer pricing for their rental fleet or school is invited to call us for a special bulk discount price at (910) 667-0270 or via email at questions@musicmedic.com or visit: [MusicMedic.com](https://www.musicmedic.com)
