THE WILMINGTON CLARINET

EVERY CLARINET IS PLAY-TESTED, ADJUSTED & SET-UP BY OUR SKILLED TECHNICIANS

THREE MODELS AVAILABLE, FROM STUDENT TO PROFESSIONAL GRADE

June X, 2019 - Wilmington, North Carolina - FOR IMMEDIATE RELEASE - [MusicMedic.com](https://www.musicmedic.com), your online resource for Woodwinds repair tools and supplies is proud to announce a line of high-quality and affordable clarinets - **The Wilmington Clarinet**. The Wilmington Clarinet is available in three models and each instrument is play-tested, adjusted and set-up by MusicMedic's skilled technicians ensuring ready-to play quality right out of the box.

The Wilmington Clarinet is available in these three models:

The Wilmington Clarinet (901) - The highly playable and most economical of The Wilmington Bb clarinet line features an ABS body finished with a brushed wood-grain look. The lightweight ABS resin body is quite durable and ideal for beginners, students, and marching band because it's easy to clean, low maintenance, and resists cracking.

The body of the clarinet is machined on a 4 axis CNC machine for a highly consistent result. The Boehm French style key work is constructed from solid rigid German nickel-silver with durable nickel plated finish. MSRP: \$350

Special features:

- Premium skin pads
- Undercut tone holes for optimal performance
- Locking posts keep the clarinet in excellent alignment
- Stainless steel screws and rods
- Blue steel needle springs for excellent key action
- Adjustable thumb rest with strap ring for optional neck strap
- Adjustment screw allows the F/C key to be easily set up

The Wilmington Clarinet (902) - The 902 is free-blowing, with a beautiful tone that is clear and vibrant. The Boehm French style keywork is constructed from solid rigid German nickel-silver and finished with silver plating for a striking look and great feel.

The intermediate model in The Wilmington Bb clarinet line is made from a composite of hard rubber and grenadilla wood with a brushed wood-grain look. The body's ability to withstand changes in temperature and humidity practically eliminates the risk of cracks and is low maintenance. The body of the clarinet is machined on a 4 axis CNC machine for a highly consistent result. MSRP: \$485

Special features:

- Premium pressed felt skin pads
- Undercut tone holes for improved intonation and sound
- Locking posts keep the clarinet in excellent alignment
- Stainless steel screws and rods
- Blue steel needle springs for excellent key action
- Adjustable thumb rest with strap ring for an optional neck strap
- Adjustment screw for the F/C key
- Adjustable crow's foot for easy right hand set up
- Cork pad in register key

The Wilmington Clarinet (903) - The 903 professional model in The Wilmington Bb clarinet line is crafted from beautiful grenadilla wood. The unmatched tone of solid hardwood is what gives the 903 a clear, highly resonant sound, projection, and power in all registers. The Boehm French style keywork is constructed from solid rigid German nickel-silver and finished with silver plating for a striking look and great feel. MSRP: \$1,350

Special features:

- Premium white leather pads
- Cork pad in register key
- Undercut tone holes for improved intonation and sound
- Stainless steel screws, rods, and flat springs
- Blue steel needle springs for excellent key action
- Adjustable professional style thumb rest with strap ring for optional neck strap
- Adjustment screw for the F/C key
- Adjustable crow's foot for easy right hand set up

All models of The Wilmington Clarinet come with two barrels. These can also be used to dial in the intonation in very warm and very cold weather. The lightweight nylon case comes with shoulder straps for easy transport. Other accessories include a mouthpiece and ligature, Ultimax key oil, Ultimax cork grease, cleaning cloth, and cleaning swab.

Every Wilmington clarinet is playtested, adjusted, and set-up at our shop in Wilmington, NC by a professional woodwind technician. The final step is putting our personal stamp of approval- the engraving of The Wilmington logo- on the bell and body. Anyone interested in dealer pricing for their rental fleet or school is invited to call us for a special bulk discount price at **(910) 667-0270** or via email at questions@musicmedic.com or visit: MusicMedic.com
